PennEdge® Coordinated Emblems

From embroidery to emblems, including the PennEdge® coordinated emblem, Alsco® offers a variety of ways to keep your brand front and center.

PennEdge is a patented, coordinated embellishment program that uses the same fabric found in your uniform shirt. These emblems feature a low-profile, stitched mini-border that allows the emblem to blend into the garment, giving it the look and feel of direct embroidery.

Our Green Approach

Because we care about the communities we work in and the world we live in, our green approach reaches beyond the products we sell. It's a core component of who we are and what we do.

Selecting Green Products and Partners

- Choosing sustainable vendor-partners, including our paper supplier who was recently ranked the *2nd Greenest Company in the World*
- Offering certified green facility products and services, including 100% PVC-free floor mats

Reducing for Sustainability

- Using 50% less water and 30% less chemicals with our improved water re-use system
- Using 63% less energy in our newest facilities compared to non-commercial laundering
- Using the lowest levels of gas emissions possible with efficient delivery routes
- Eliminating potentially harmful nonylphenol ethoxylates (NPEs) from our detergents as part of the EPA's *Safer Detergents Stewardship Initiative*
