Our Green Approach

We're constantly seeking smarter processes that are better for the earth. For example, our state-of-the-art water systems use about 50% less water and 30% less chemicals. Our energy-efficient plants use far less energy than home laundering in smaller machines, and our textiles are reusable for less of an impact on landfills.

When you choose AlSCO® reusable products, you're helping your facility become "greener." Since many consumers select companies based on the ecological footprint they leave behind, you know by partnering with our green efforts that you're making a wise choice for both your business and the environment.

Chef Coats

Napkins & Tablecloths

AlSCO napkins and table linens elevate your customers' dining experience.

- Fabric made in the USA
- Soft-as-cotton feel
- Superior absorbency
- Exceptional soil-release qualities
- Odor-eliminating fabric
- Resistance to pilling
- Reduced linting
- Decreased shrinking
- Bright, consistent color, wash after wash

Are your table linens certified hygienically clean?

Only AlSCO gives you proof.

With AlSCO's new NSF International hygienically clean certified table linens, you never have to wonder how clean your table linens really are.

The NSF mark is a trusted symbol in the industry and certifies that AlSCO's laundering and handling processes have been tested and meet NSF International's requirements for hygienically clean and safer table linens.

Look for the proof.

Look for the NSF Mark on all your packages of AlSCO Signature® and Bon Appétit™ Table Linens.

AlSCO Signature® and Bon Appétit™ Table Linens

The Pro Set

Front-of-House: Microfiber Pro Towel

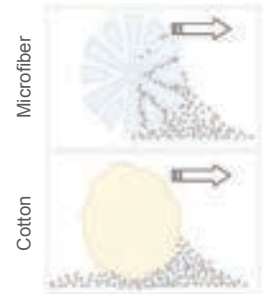

The green stripe

The Microfiber Pro towel performs better than cotton for general surface and glassware cleaning:

- Fibers contain multiple grooves that attract, pull in, and hold moisture and dirt
- Won't scratch surfaces
- More absorbent and performs better when damp
- Lint-free and leaves no residue
- Greater durability
- Whiteness and brightness that lasts
- Non-combustible
- More eco-friendly

NOTE: Microfiber Pro towels will melt at high temperatures and should not be used to clean grills or other hot items.

Back-of-House: Pro Towel

The black stripe

- High-heat resistance
- Extra-thick construction for cleaning or hotpad use
- Specifically designed to protect hands
- Large enough to fit over the shoulder for convenience
- Absorbant enough to clean even large spills

Clean Air

All FreshSM by AlSCO

AlSCO saves you time by delivering washroom products right to where you need them, and our just-in-time service means you only get the product you need, when you need it. You save space and time by reducing inventory maintenance and by having a single contact for all your facility service needs.

Make sure your customers have a positive experience. Odors and fragrances can affect the way your customers feel about your business.

Clean Hands & Dry Hands

Washing hands is the first line of defense against the spread of germs.

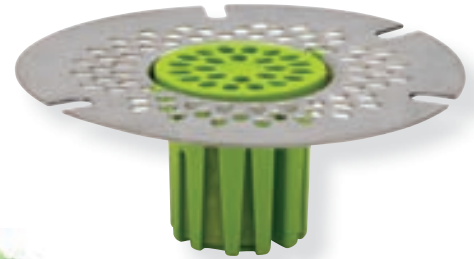

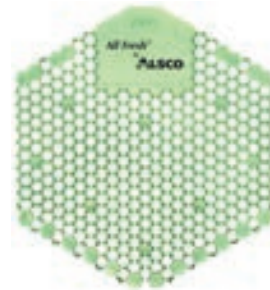

Ensure your customers and employees always have a fresh, clean way to dry their hands after washing.

Clean Fixtures

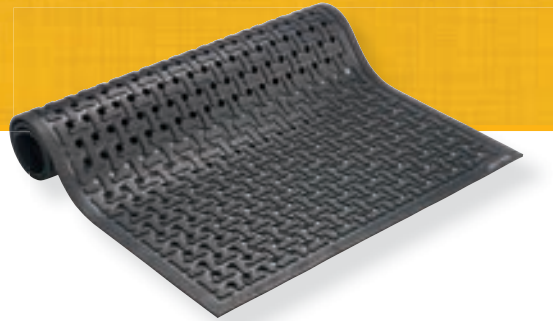

“Most customer complaints are restroom related.”

- Building Owners and Managers Association

To see our complete line of hygiene and well-being products, visit AlSCO.com.

Clean Floors

All FreshSM by AlSCO Floor Mats and Mops

A good floor care program that includes floor mats combined with mopping can reduce labor costs, protect the finish on floors, reduce dust-related health problems, and enhance the appearance of floors.
