What AlSCO Offers

- Custom rental, lease, and direct purchase programs
- Advice on fabrics, colors, and styles
- Consistent prices and clear charges
- Online account management program
- Customized logo and embroidery options
- Multiple service and products available – uniforms, linens, hygiene and well-being, first aid, mats, mops, and more

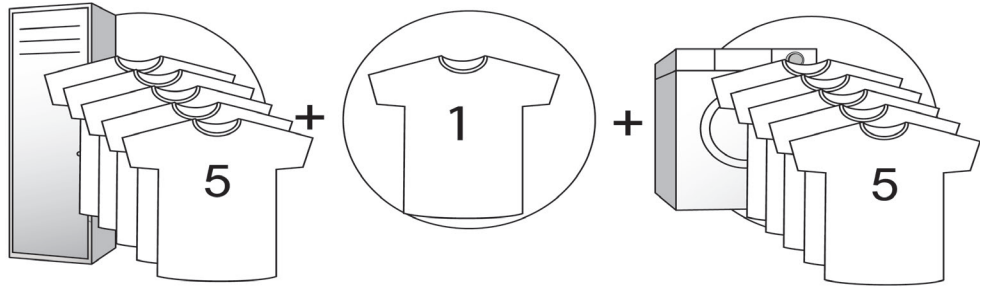

Determine Your Uniform Needs

When you rent uniforms through AlSCO, you will need enough changes of the uniform to ensure your employees always have a clean uniform. For example, if your employee needs a clean shirt each day of the week, you will be issued **11** shirts total for each employee.

Here's the math:

- **5 shirts** for each day of use during the week
- **5 shirts** from last week that are out for laundering
- **1 shirt** your employee is currently wearing

Other combinations are available, depending on your needs

Uniforms with Combined Protection

Get dual protection with our extensive Bulwark® protective collection. Our uniforms will shield employees from the risks of flash fire and arc flash, eliminating the need to purchase a separate set of garments.

All products in this catalog are certified and compliant with the following National Fire Protection Association (NFPA) standards:

NFPA 2112-2012 Standard on Flame-Resistant Garments for Protection of Industrial Personnel Against Flash Fire

NFPA 70E-2015 Standard for Electrical Safety in the Workplace

Determine the Correct Arc Rating for Your PPE

| | MINIMUM ARC RATING (CAL/CM ²) |
|---|--|
|  | 4.0 |
|  | 8.0 |
|  | 25.0 |
|  | 40.0 |

Ensuring employee safety and compliance when working with electrical currents begins by selecting the appropriate arc-rated Personal Protective Equipment (PPE). An Arc Thermal Protective Value (ATPV) or arc rating represents the amount of incident energy predicted to cause second-degree burns (number of calories/centimeter squared or cal/cm²) and helps determine what level of protection your employees' PPE should offer.

The NFPA 70E standard includes four categories of protection to help you select the most appropriate PPE. Category ratings are dependent on the magnitude of potential arc flash hazard and are used to simplify the labelling of PPEs.

Because it is estimated that between 80%–90% of the electrical equipment that can cause an arc flash would generate around 8 cal/cm², most people working with electricity require PPE with a category 2 rating. Be certain that the arc rating you select matches the potential incident energy hazard analysis for your work environment (see chart).

FR RENTAL SERVICE

AlSCO's FR rental service program includes the following benefits:

- **Perfect-fit sizing** to ensure all FR uniforms fit properly on the body of the wearer to avoid wrinkles and uneven areas where heat energy may build up and reduce the effectiveness of the PPE.
- **Uniform tracking** to ensure you always receive the correct garments.
- **Weekly delivery** of clean uniforms and pickup of soiled uniforms to ensure you always have clean garments.
- **Dedicated FR laundering** using special products and washing formulas that maintain and protect the FR characteristic of the garments since home laundering may damage FR uniforms.
- **Quality control** to ensure garments are checked for damage and always in peak condition.
- **Inventory maintenance** for new hires and replacement of old inventory.
- **Lockers** installed to store clean uniforms (optional).

Lockers

Arc-rated and FR garments must be properly stored to maintain their protective properties. Lockers provide an ideal way to protect PPE garments and maintain their functionality.

NFPA 70E clearly states:

"Arc-rated apparel shall be stored in a manner that prevents physical damage; damage from moisture or other deteriorating agents; or contamination from flammable or combustible materials."

¹Source: NFPA, Standard NFPA 70E, Personal Protective Equipment (PPE), 2015, chap. 130.7.

Availability may vary at your location.

High-Visibility Uniforms

| | | |
|--------|----------|-------|
| HI-VIS | OFF-ROAD | |
| | TYPE | CLASS |
| | O | 1 |

Intended for use in environments where struck-by hazards exist from moving vehicles, equipment, and machinery not operating on public access rights of way or temporary traffic control zones.

| | | |
|--------|---------|-------|
| HI-VIS | ROADWAY | |
| | TYPE | CLASS |
| | R | 2 |

Intended for use by personnel exposed to vehicular traffic from public access rights of way or roadway temporary traffic control zones. Class 2 garments require the use of greater amounts of high-visibility materials that help distinguish between a human and an inanimate object.

First Aid Service

First aid cabinets are for emergencies, but most aren't designed for them.

Problems with self-run and leased cabinets include some of the following:

- Not organized in a useful manner
- Critical time lost searching for supplies
- Difficult to maintain
- Shortages or expired products
- Expensive, with unpredictable charges from month to month

Eliminate these problems with AlSCO's First Aid Service.

The most critical element in first aid is time. Don't waste it.

With AlSCO's pre-packaged grab-and-go modules, you can feel confident you've got everything you need to quickly handle:

- Minor wounds
- Serious wounds
- Eye wounds
- Burns
- Body fluid clean up
- Resuscitation

First Aid Service

We offer one low weekly price and a worry-free service that ensures your cabinet is fully stocked and maintained.

With AlSCO, you will be able to:

- Easily manage your budget with one low fixed cost
- Save time you currently spend managing your current first aid program
- Ensure your business is in compliance with workplace first aid standards
- Quickly get what you need to take care of an emergency

Ask your AlSCO representative how our managed First Aid Service can benefit you.

Safe Floors

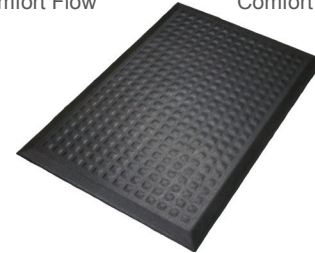

Protect your employees, customers, and your floors with our inventory of slip-resistant and anti-fatigue mats. For added value, make full use of our logo and message mats to highlight safety fixtures and devices.

Comfort Flow™

Comfort Scrape™

Complete Comfort™ II

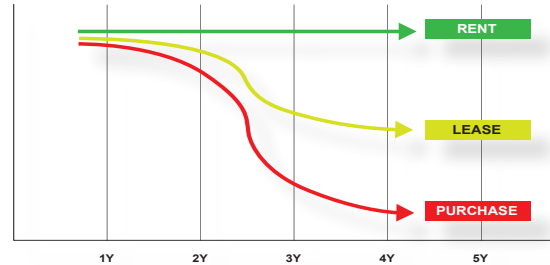

Go the Distance, Choose the Right Partner

Your job is tough and the uniforms you wear take a beating every day. Renting safety uniforms is the best way to protect your crew from the hazards they face, allowing them to enjoy, every day, the same quality and comfort a new uniform offers.

With AlSCO as your partner for uniforms, your employees, customers, and business will not only be well-protected, but you'll enjoy the full value and quality of your investment from our rental program.

Service, Quality, Cost Control, and Efficiency Over Time
