

## **AlSCO Acquires Larosé GmbH**

### **This Enables the Company to Provide More Comprehensive Linen and Uniform Rental Service to Customers in Germany`**

Salt Lake City, UT – On April 30, 2015, AlSCO Inc. announced that it has acquired Larosé GmbH.

“Like AlSCO, Larosé GmbH has a long history of being a family-run company,” said Paul Rasband. “This acquisition adds five processing plants across Germany, with an additional 800 employees and over 5,000 customers. It enables AlSCO to provide more comprehensive service to its customers in Germany.”

The acquisition positions AlSCO Germany as one of the leading linen and uniform rental companies in the German market with a combined total of 12 formerly existing and newly acquired processing plants.

This announcement comes on the heels of AlSCO’s April 20, 2015 announcement that it has acquired Admiral Linen and Uniform Rental Services in Texas and Oklahoma. These two acquisitions demonstrate AlSCO’s continued commitment to grow and expand its offering of products and services worldwide.

**About AlSCO:** AlSCO Inc. was the first company to introduce linen and uniform rental services to the world in 1889. With over a 125 years of business experience, AlSCO continues to be a leader in its industry. AlSCO has more than 17,000 employees and over 160 branches worldwide. The company provides rental, leasing, and laundry services for linens and uniforms; washroom and hygiene products; and direct-purchase options for a variety of garments and linens.
